

3 February 2021

**Notification to Customers and Partners
of ESCATEC's Malaysian Business Units (EEM, EDM, ETM, EMM)**

With reference to our notification dated 12 January 2021 to inform our customers and partners that the Malaysian government has reimposed nationwide movement restrictions - referred to as the "Movement Control Order 2.0" (MCO2) - which tentatively was to end on 4th February 2021.

Please be advised that the Malaysian government has now extended the MCO2 to 18 February 2021 in a bid to further control COVID-19 cases, with the public and businesses required to adhere to even more stringent movement & social restrictions and Health & Safety SOPs.

Most economic sectors (including electronics manufacturing) can continue to operate during MCO2, subject to complying with all State and Federal government requirements and SOPs.

All our Malaysian Business Units – ESCATEC Electronics (EEM), ESCATEC Medical (EDM) & ESCATEC Technology (ETM) in Bayan Lepas, Penang, and ESCATEC Mechatronics (EMM) in Johor Bahru, Johor – practise very stringent precautions and will stay operational during this extension to the MCO2.

As a precautionary measure, please be advised that all ESCATEC facilities in Malaysia remain unable to receive visitors until further notice.

We continue to closely monitor the situation and will keep all stakeholders updated of developments.

Please do get in touch with your ESCATEC contact or send an email to info@escatec.com in case of further questions or enquiries.

Yours Sincerely

Juha Arola
Chief Operating Officer
ESCATEC Group
