Notification to Customers and Partners of ESCATEC's Malaysian Business Units (EEM, EDM, ETM, EMM)

With reference to our previous notification to customers and partners dated 25th May 2021.

Please be advised that the Malaysian government over the weekend announced a "Nationwide Full Lockdown" for 2 weeks **from 1st June to 14th June 2021**, as Phase 1 of its "revised & enhanced Movement Control Order 3.0". The lockdown will impose a host of further restrictions on the business sector and the ability of people to travel and socialise, in a bid to mitigate the COVID-19 pandemic in Malaysia.

The government, however, is allowing selected "essential" industries (including electronics manufacturing due to its importance to global supply chains) to continue operating, with the proviso that 40% of the total employee headcount continue to Work-from-Home at any given time. **To summarise, these are the same conditions imposed earlier on electronics manufacturing, as informed in our previous notification dated 25th May 2021.**

ESCATEC's Malaysian business units (i.e., ESCATEC Electronics, ESCATEC Medical and ESCATEC Mechatronics) have, for more than a year now, been practising a Work-from-Home policy as much as possible for its office and management staff.

We continue to manage the situation to minimise any impact on customer deliveries and your Key Account Manager will contact you if we foresee any changes to our delivery commitments. Please note that due to our stringent Health & Safety SOPs, our facilities in Malaysia remain unable to receive visitors.

We continue to closely monitor and assess the situation and will keep our customers and partners updated of developments. Please do get in touch with your ESCATEC contact in case of further questions or enquiries.

Yours Sincerely,

Juha Arola
Chief Operating Officer
