Notification to Customers and Partners of ESCATEC's Malaysian Business Units (EEM, EDM, ETM, EMM)

With reference to our previous notification to customers and partners dated 15th June 2021. Please be advised that the Malaysian government has extended Phase 1 of its "Movement Control Order 3.0" (MCO3.0) **indefinitely** until such time as three set conditions are achieved.

The three conditions set by the government are:

- 1) The 7-day daily average for new COVID19 cases is below 4000
- 2) ICU wards in public hospitals are operating at "moderate" capacity
- 3) At least 10% of the population have been fully vaccinated

The government announced that Malaysia will move to Phase 2 of the MCO3.0 (where more economic sectors will be allowed to operate and social restrictions slightly relaxed) when these three conditions are met.

Selected "essential" industries (including electronics manufacturing due to its importance to global supply chains) will continue operating during this indefinite extension to Phase 1 of the MCO3.0, subject to full compliance with strict Health & Safety SOPs and with 40% of employees working from home. **To summarise, ESCATEC business units in Malaysia will remain operational with 40% of employees working from home.**

We continue to manage the situation to minimise any impact on customer deliveries and your Key Account Manager will contact you if we foresee any changes to our delivery commitments. Kindly get in touch with your ESCATEC contact in case of further questions or enquiries.

Yours Sincerely,

Juha Arola
Chief Operating Officer

ESCATEC SDN. BHD.
